Addition Review

438 + 155	265 + 352	172 + 111	516 + 293
192 + 117	781 + 228	162 + 371	289 + 128
255 + 122	688 + 335	241 + 897	187 + 131

1. Debora collected 610 pinecones. Paul collected 267 pinecones. How many pinecones did Debora and Paul collect in all?
2. Bruce made 75 mugs of hot chocolate. His friends made 116 mugs of hot chocolate. How much hot chocolate did Bruce and his friends make?

Winter Story Problems

Dear Teachers,

Included in this download is a set of 8 winter-themed story problems for second grade math. Many of the problems can be used for advanced first graders or struggling third graders.

Students use the directions and the easy math mat format to work their way through the story problem as they reach a final answer.

Your students will work on important problem-solving skills such as eliminating unnecessary information, identifying the question sentence, and circling the key numbers within the math problem. Students will also identify the strategies used to solve the problem, show their work, and develop higher level thinking skills as they write about how they solved the problem. Problems include double digit addition and subtraction, as well as identifying number patterns within a story.

I hope you find these winter math problems useful to you and your students! They are great to use for independent practice, small group work, and whole group lessons. I often use these on Fridays as a change of pace to our ordinary math warm-up activities.

Have fun and happy learning!

What's the Difference? - Double Digits

Directions:

- Using a deck of cards containing only the numbers 0 - 9, choose two cards and place them side by side to make a double digit number.
- Repeat the first step with two more cards.
- Take your LARGER double digit number and write it on the first line of the equation and write your smaller double digit number on the second line of the equation.
- Subtract the smaller number from the LARGER number to find the difference.
- You can use a whiteboard or scrap paper if you need more room to solve your equation.
